The Power of Google Maps

📍 Tourists Find You

Tourists search "Shopping in Negril" or "best shop near me" — your store appears on Google Maps with photos, hours and reviews.

📞 One-Tap Phone Call

Your phone number appears directly on Google. Customers tap once and they're calling you directly. No searching required.

❖ Directions to Your Door

Customers get turn-by-turn directions from their hotel straight to your store. Address, hours and photos — all in one place.

★ Reviews Build Trust

Positive reviews make you stand out on Google. More reviews = higher ranking = more new customers finding you.

🏆 Beat the Competition

Most Negril shops are NOT on Google yet. Be one of the first — fill the gap = first-class search results for tourists.
